Key figures

- Revenue: +16% (quarter), +19% (9 months); EPS: +17%.
- System-wide sales: +5% in the USA, +24% internationally.
- Network: 17,403 restaurants in 84 countries; 1,453 openings since January.

Significance for the case file

Background document: it quantifies the group's **financial strength** at the time of the events. To be compared with the situation of an isolated lessee-manager in Antibes, called upon to pay his fees while the network head was posting record results — the imbalance of power at the heart of the case.
