12 Mar 1999

SUMMARY SHEET

Study: competition law and contract law

Overview: Scholarly study devoted to the relationship between competition law and contract law, taken from the “Law and Society” section of the former website.

Key points

According to its outline, the study is organised around the intrusion of competition law into contract law. The first part deals with the influence of competition law on freedom of contract — transparency of the offer, non-discrimination and discriminatory practices. The text is legal scholarship, not one of the documents of the proceedings: it appeared in the “Law and Society” section of the original website.

Significance

A scholarly contribution gathered for documentary purposes; it places the case within the wider legal debate on the interplay between competition and freedom of contract.

Sheet generated automatically from the text of the document.
